EXPERIENCE

Full Stack Developer Intern Aug 2026 – Present
Wentrite Technologies Pvt. Ltd. | *On-site*
- Training in backend development, microservices, databases, DevOps and AI technologies.
- Implementing new features and improving existing application modules based on project requirements.

Full Stack Developer Intern May 2025 – Jun 2025
Leiten Software Technology Pvt. Ltd. | *On-site*
- Developed full-stack applications using Java, Spring Boot, React.js and MySQL.
- Integrated REST APIs, built responsive interfaces, and performed application debugging and testing.

PROJECTS

EduVerse – AI-Integrated Student Management System
Tech Stack: Java, Spring Boot, Spring Security, JWT, React.js, MySQL, Hibernate/JPA, Gemini API
- Built a full-stack student management system with student CRUD, user management, audit logs, soft delete and an admin dashboard.
- Integrated a Gemini API-powered AI assistant through the Spring Boot backend to answer student information and learning-related queries.
- Developed secure REST APIs with Spring Security and JWT authentication, using Spring Data JPA and Hibernate for persistence.
- Built the React.js frontend with Axios, connecting the interface, backend, database and AI features.

OrbitMeet – Real-Time Video Conferencing Web Application
Tech Stack: JavaScript, WebRTC, WebSocket
- Developed a browser-based meeting application with meeting rooms, text chat, audio calls and video calls.
- Implemented WebRTC for real-time audio/video streaming and WebSocket for bidirectional communication between connected users.
- Built room creation and join-by-room-ID flows so users can meet and collaborate in the browser.
